This series of books has been designed to stimulate talking and language development in young children.

Many of the pictures show things which the child will already know but several of the things he or she may not know. These will all provide topics for discussion and the opportunity for the child to learn something new.

If an adult looks at the books with the child and talks about the pictures, the value of the books will be increased. However, each book in the series is a delightful and interesting picture book in itself for every child.

The Sunbird: First Word Book is a picture dictionary for young children. This basic collection of words is about the child and his or her environment.
